

## ENTERED FILMS LIST 2014/15

The films listed are those which have been entered by film distributors and producers. Suggestions for entries by BAFTA members have been passed on to distributors and producers. Credits have been provided by entrants, industry publications and other sources. Every endeavour has been made to ensure that these listings are as accurate as possible.

The listings indicate whether a film is eligible for Adapted or Original Screenplay, Animated Film, Documentary, Film Not in the English Language, Outstanding British Film and Original Music.

Please note that all performers will be listed for voting in both the Leading and Supporting categories: voters should place the performers into whichever category they think most appropriate.
